a! Despatch to THE NEW YORK HERALD.

New York Herald Bureau. Assemblyman Thomas J. McDonald, gemocrat, of The Bronx introduced torelight a resolution creating a legislative committee of five to investigate trust pompanies and savings banks with a view of determining the policies of those institutions in making mortgage loans. The committee will be empowered, if appointed, to inquire into the affairs of institutions in relation to building ionas called in reduction of mortgages insisted upon and increases in the rate of interest demanded for loans secured by mortgages during the past five years." The resolution appropriates \$10,000 for the committee, which would report April next year.

The resolution apparently seeks to cover subjects that Samuel Untermyer, as counsel for the Lockwood housing committee, tried to get power from the Legislature to investigate. The leaders refused Mr. Untermyer's request on the ground that it would enable him to make a general investigation of financial institutions and insurance companies. Coming from a Democrat, the McDonald resolution is not expected to get anymas J. McDonald.

Gov. Miller said to-day that while he
believed some motion pictures needed
censoring, he was not yet prepared to
state his position on the question of a
State wide picture censorship. Asked
about the Clayton bill now before the
Legislature creating a State Censorship
Commission, he said that he had been
too busy to give the matter careful

under consideration. Some of the legislative leaders are discussing the bill
seriously.

OLD PLAN IS REVIVED TO MAKE CITY A STATE

Albany, Feb. 21.]
The old proposal to make a separate State of New York city is before the Legislature again. Senator Cotillo of New York offered a resolution to-night asking the Legislature to memoralize Congress to carve out a new State, No. 42 in the Union, for the metropolis.

The city has 6,000,000 inhabitants, the resolution states making up 60 per cent of the State's paiking up 60 per cent.

of the State's population. Moreover, it is
stated the city pays 73 per cent. of the
State's expenses and gets only 40 per
cent of the State's representation in the
Legislature. The resolution will probably meet the same fate as has other
similar documents in recent years.

BUENOS AIRES, Feb. 21 .- More than

The Assembly Codes Committee will act on this bill to-morrow. Because of widespread exploitation by fake promoters, the legislative leaders are giving their support to the measure.

The cut in the price of export newsprint paper to \$110 a ton, or 5½ cents a pound, for the second quarter of 1921, announced on last Thursday by the Canadian Export Paper Company, was easily the predominating topic of interest in financial circles. That price is in marked contrast to the export price of \$130 a ton, or 6½ cents a pound, for the current quarter. Last year's average price was 5 cents, and certain mills averaged less on their year's business.

Paper stocks have undergone further depression, therefore, and also because of the fact that in Ablitib heavy selling which took place was reported as on inside account for realizing purposes.

Some weak margin accounts also went under. The stock rebounded fairly well from the low of 41% to around 45.
